## Select your starting level

<u>It's simpler to pick the **Mid-level starting point**</u>. In fact, it doesn't really matter. The test is adaptive. If you get the first few questions **right** at the mid-level the system will start asking you harder questions until it finds your level. If you get the first few questions **wrong**, the system will start asking you easier questions until it finds your level.

WARNING: You cannot go back to questions you skipped.
