

## Interior Architecture (IA)

Hochschule **RheinMain**  
University of Applied Sciences  
Wiesbaden Rüsselsheim

Course	<b>History of Architecture I</b>
Topics/Content of Course	History of Architecture I covers the development of Architecture in its cultural and technological context with a focus on Interior spaces from Ancient Egypt till the industrialization.
Study form	Lecture with exercise
ECTS-Points	3
Hours of required presence per week	2
Language	German or English
Responsible lecturer	Prof. Holger Kleine

Course	<b>History of Architecture II</b>
Topics/Content of Course	History of Architecture II covers the Architectural Production since the industrialization focusing on Interior Spaces and their interaction with the arts and the sociopolitical context.
Study form	Lecture with exercise
ECTS-Points	3
Hours of required presence per week	2
Language	English
Responsible lecturer	Prof. Holger Kleine

Course	<b>English for Interior Architects</b>
Topics/Content of Course	Describing and promoting Architectural Thoughts in English, as it may be required for acquisition, explanation and realization on the construction site.
Study form	Seminar
ECTS-Points	2
Hours of required presence per week	1
Language	English
Responsible lecturer	Simone Marx

Course	<b>Project Space - Design</b>
Topics/Content of Course	In this module students have to design a small public building with a focus on the articulation of the interior space. Weekly attendance of the desk crits and project reviews is mandatory. The focus is to design a sequence of spaces which responds in all its aspects (proportion, shape, light, material, function) to contemporary requirements in a coherent way.
Study form	Project
ECTS-Points	5
Hours of required presence per week	4
Language	English
Responsible lecturer	Prof. Holger Kleine

Course	<b>Project Space - Construction</b>
Topics/Content of Course	In this module students have to design a small public building with a focus on the articulation of the interior space. Weekly attendance of the desk crits and project reviews is mandatory. The focus is a basic understanding of the flow of forces in a built structure and the general possibilities to integrate the structural needs into the overall and poetic idea of the design. Selections of structural problems which are essential to the concept have to be detailed.
Study form	Project
ECTS-Points	7
Hours of required presence per week	5
Language	English
Responsible lecturer	Prof. Holger Kleine

Course	<b>Project Space - Representation</b>
Topics/Content of Course	In this module students have to design a small public building with a focus on the articulation of the interior space. Weekly attendance of the desk crits and project reviews is mandatory. The focus lies on training and mastering analogous, freehand and architectural drawing techniques and model building in such a way that the media precisely transport the architectural intentions especially in their respect to the atmosphere.
Study form	Project
ECTS-Points	3
Hours of required presence per week	2
Language	English
Responsible lecturer	Prof. Holger Kleine

Course	<b>Charette (Stegreif 3)</b>
Topics/Content of Course	The Charette focuses on developing the student's capacity to quickly (often within a day) respond to a design task and express the fundamental idea in a clear manner, often a combination of drawings and models.
Study form	Project
ECTS-Points	4
Hours of required presence per week	3
Language	German or English
Responsible lecturer	Prof. Ralf Kunze

Course	<b>Charette (Stegreif 5)</b>
Topics/Content of Course	The Charette focuses on developing the student's capacity to quickly (often within a day) respond to a design task and express the fundamental idea in a clear manner, often a combination of drawings and models.
Study form	Project
ECTS-Points	5
Hours of required presence per week	4
Language	German or English
Responsible lecturer	Prof. Holger Kleine
